Chapter	Software required	Hardware	OS
number	(With version)	specifications	required
	, , , , , , , , , , , , , , , , , , , ,	•	- 4
1	- ORACLE JDK 1.8.*  - JavaScript enable browser	- Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.	- Windows - Linux - Mac
2	- ORACLE JDK 1.8.*  - JavaScript enable browser	- Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.	- Windows - Linux - Mac
3			- Windows - Linux - Mac
4	- ORACLE JDK 1.8.*  - JavaScript enable browser  - MySQL 5.7	- Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation.	- Windows - Linux - Mac
5			- Windows - Linux

Figure 1.2 Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Windows - Linux - Mac  - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Windows - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  - Windows - Linux - Mac  - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  - Linux - Mac  - Linux - Mac  - Windows - Linux - Mac  -				- Mac
7 - Linux - Mac  7 - Windows - Linux - Mac  8 - Windows - Linux - Mac  9 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size. browser - Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size Mac  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size Linux  - Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  11 - Windows  11 - Windows  - Windows  - Linux  - Mac  - Windows  - Linux  - Mac  - Windows  - Linux	6			
7				
8  9 - ORACLE JDK 1.8.* - Memory: 4 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and IGB heap size.  11 - Windows  11 - Windows  11 - Windows  11 - Windows  - Linux  - Mac  - Windows  - Windows  - Linux  - Mac  - Windows  - Linux  - Windows				- Mac
8 - Mac  9 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size.  - Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size.  - JavaScript enable browser - Space disk: 5 GB for installation.This is needed for logs and databases.  - Windows - Linux - Mac  - Windows - Linux - Mac  - Mac  - Windows minimum and 1GB heap size.  - Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.	7			- Windows
8 - Windows - Linux - Mac  9 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  11 - Windows				- Linux
9 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux - Mac - JavaScript enable browser - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux - Windows - Linux - Mac - Windows - Linux - Mac - Mac - Windows - Linux - Mac - Mac - Windows - Linux - Mac - Windows				- Mac
9 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.	8			- Windows
- ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux - Mac browser - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Memory: 4 GB for installation and databases.  - Mac - Windows - Linux - Memory: 4 GB minimum and 1GB heap size Linux - Linux - Linux - Mac - MySQL 5.7 - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.				- Linux
- ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux - Mac browser - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Memory: 4 GB for installation and databases.  - Mac - Windows - Linux - Memory: 4 GB minimum and 1GB heap size Linux - Linux - Linux - Mac - MySQL 5.7 - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.				- Mac
browser  - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Windows  - Windows  - Windows  - Windows  - Mac  - Windows  - Windows  - Mac  - Memory: 4 GB minimum and 1GB heap size.  - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Windows  - Windows	9	- ORACLE JDK 1.8.*	•	
GB for installation. This is space just for the component. Additional space is needed for logs and databases.  10 - ORACLE JDK 1.8.* - Memory: 4 GB minimum and 1GB heap size Linux browser - Space disk: 5 GB for installation. This is space just for the component. Additional space is needed for logs and databases.		- JavaScript enable	1GB heap size.	- Linux
- JavaScript enable browser  - Space disk: 5 GB for installation.This is space just for the component. Additional space is needed for logs and databases.  - Windows		browser	GB for installation. This is space just for the component. Additional space is needed for logs	- Mac
browser  - Space disk: 5  GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Mac  - Mac  - Mac  - Mac	10	- ORACLE JDK 1.8.*		- Windows
- MySQL 5.7  GB for installation. This is space just for the component. Additional space is needed for logs and databases.  - Mac  - Mac  - Mac		- JavaScript enable	1GB heap size.	- Linux
the component. Additional space is needed for logs and databases.  - Windows			GB for installation.This	- Mac
is needed for logs and databases.  11 - Windows			the component.	
			is needed for logs
